

QuickBooks®

Annual Licence for Mac, iPad and Android

QuickBooks, hosted by Reckon Online, incorporates advanced accounting functionality with the ability to access your company data file anywhere, anytime over the internet. And now, QuickBooks Hosted provides even more convenience, improved efficiency and greater productivity for all organisations through the Premium Service - for access on your PC, Mac, iPad and Android.

Work anywhere, any time

Now you can enjoy the convenience of being able to access your company data from anywhere in the world, at any time, just as if you were sitting in the office.

Accessible on a variety of platforms

The QuickBooks Hosted Premium Service for Mac, PC, iPad and Android is designed for use across a variety of platforms, giving you greater flexibility and more convenience than ever before. Advanced accounting functionality and powerful features help you manage your business efficiently no matter where you are - on the road with your iPad or at your desk with your PC.

Fast access to your information

You can get fast online access to your company data file anywhere, anytime with QuickBooks Hosted Premium - on your Mac, PC, iPad, Android and portable devices. Experience quicker login and transaction processing speed than a standard hosted connection.

Share data*

Allow many more users than most conventional accounting software packages to work on a company file at the same time. *Only 1 licence included. Additional licence required for each user.

Easy access for Accountants and Bookkeepers

It's now easy for your accountant or bookkeeper to remotely log-in and work on your file simultaneously with you (with your permission), helping to ensure your company data is always accurate and up to date.

'Always on' audit trail

QuickBooks Hosted makes it easier for your accountant to spot possible trouble spots or mis-postings in your accounts.

Advanced inventory management

Easily enter, track and reconcile your inventory movements and costs, including in different units of measure where required. Plus track expenses, inventory and component levels for assembled products.

QuickBooks®

Annual Licence for Mac, iPad and Android

Advanced data security

Your data file is hosted and administrated by Reckon in a Tier 3 Data Centre, helping to ensure greater data security, better connectivity and multi-redundancy. It can only be accessed through a secure login and automatic live data backups are conducted each day. You can experience fast, high quality performance and know that Reckon is helping you to manage your data security needs. Plus, the advanced activity based security allows you to restrict access of users to only those areas required to complete their job. See the Security page on our website for more information.

Save data locally or remotely

QuickBooks Hosted also allows you to save your company data in QuickBooks to your desktop or portable hard drive for greater peace of mind.

Eases the compliance burden

Software upgrades and updates will occur automatically to help ensure you're compliant with the latest government legislation.

Reduce your IT burden

All that's required to run QuickBooks Hosted is Safari 5 or above, Android 1.5 or above, Microsoft Internet Explorer 7.0 or above, Mozilla FireFox v3.5.7 or Google Chrome, and a broadband connection.

Easy Setup Wizard and Help Menu

The Easy Setup Wizard and Help Menu will assist you to have your business up and running on QuickBooks Hosted within minutes.

Intelligent integration

Intelligent integration capabilities allow you to access QuickBooks information stored on remote hard drives, print reports to local or remotely networked printers and email payslips, invoices and remittance advices directly from your nominated email address.

QuickBooks®

Annual Licence for Mac, iPad and Android

Enjoy tailored solutions for your industry

QuickBooks includes 21 industry specific Chart of Accounts, so only accounts relevant to your business are included.

Multi-company reporting

Parent companies and head offices can also combine reports to access data from subsidiaries, divisions or branches.

Multicurrency

With QuickBooks you can record, track and account for foreign transactions regardless of the currency used. Tracking these foreign currency transactions is as easy as selecting the foreign customer or supplier from your list; QuickBooks takes care of everything else. With multicurrency, you can also set up a fixed foreign price for items, or enter prices in your home currency and then have QuickBooks calculate the foreign price based on the exchange rate. The home currency refers to the currency that is used in the country in which your business is located.

No need for training

If you already use a desktop version of QuickBooks, you are ready for QuickBooks Hosted. It contains all the QuickBooks functionality you are accustomed to, plus more if you were not already using QuickBooks Enterprise.

Hosted in Australia by a financially sound Company

Your data is held in Australia and subject to strict laws governing confidentiality, security and privacy for your peace of mind. Our performance and financial results are reported to the ASX and publicly available. (ASX: RKN).

Automatic data backup and disaster recovery

Data is backed up and replicated in two separate secure Australian locations.
